Fuelling the LNG conversation
between Qatar and the world

LNG - AT A GLANCE

With Asia-Pacific and Europe increasing their LNG imports year on year, and an ever-increasing push for cleaner and more environmentally friendly fuels, LNG is the growth market that energy companies and investors are turning to.

38.4% of total LNG exports are sent to Asia-Pacific

Qatar is the largest LNG-exporting country, accounting for a quarter of the market.

25%

43%

Qatar is increasing its production line by 43%.

WORLD ENERGY QATAR

In 2020, World Energy Qatar will bring together governments, NOCs, IOCs, investors and stakeholders to shape the future strategy for the energy industry, with support from the world's largest LNG exporter, Qatar.

Alongside an international exhibition of the latest technology, there will be a 2-day commercial conference where the finest minds in Oil & Gas will gather to influence the next phase of LNG growth. This is your chance to be part of that conversation.

150 exhibitors

5,000 trade visitors

1,300 conference delegates

120 speakers

WHY SPEAK AT WORLD ENERGY QATAR?

Become an LNG pioneer

World Energy Qatar is the only event with direct access to Qatar and Qatar Petroleum, the largest LNG exporter in the world. With their capability and unrivalled development, you will be part of the most forward-thinking agenda in Oil & Gas. By sharing your knowledge, you will be a thought-leader on issues relating to international energy development, seen by the biggest names in our industry.

Showcase your talent | raise your profile

There is an abundance of great minds in the energy sector, but not all of them take to a stage and engage with hundreds of people. Be that expert who can, and you will be remembered by the key decision-makers and policy holders in LNG.

Improve our industry

World Energy Qatar will have a plethora of presentations and discussions that affect every business involved in LNG. By offering your insight, research and expert opinion, the global LNG industry will work together, better as one.

Full complimentary event access

As a speaker at World Energy Qatar, you will have unlimited access to the 3-day exhibition and 2-day conference, including all technical presentations, and an invitation to an exclusive hosted dinner.

You will also be promoted in pre-event and on-the-day marketing material, highlighting your presentation topic, knowledge and a dedicated Q&A interview, which will be seen and shared by the international Oil & Gas community.

Next: choose your presentation topic

Find out more and submit your abstract at www.worldenergyqatar.com

CONFERENCE TOPICS

Our team of producers have put together themes that address the key issues facing the future of LNG. If you have been working on any of these topics or specialise in these fields of study, we want to hear from you.

FLOATING STRUCTURES AND FSRU

- FSRU and FPSO as value-added solutions
- Reducing capital expenses and environmental impact
- Real world case studies

OPTIMISING INFRASTRUCTURE TO IMPROVE AND SECURE THE SUPPLY

- Expanding gas pipeline and storage to secure the supply and reduce costs
- Is there adequate infrastructure to support the current demand?
- Existing projects and projects under construction

REGIONAL ROUNDTABLES

- Case studies welcome

HOW TO MOVE FORWARD WITH GAS AND LNG AS A FUEL

- Investment criteria
- Technical and operational considerations
- Development and growth of fuels for marine and shipping projects
- LNG bunkering

DISRUPTIVE INNOVATION TO KEEP OIL & GAS COMPETITIVE

- Reduce costs and keep the industry competitive
- Commercial viability of forthcoming projects

ROUNDTABLE

How the requirements to meet the IMO Sulphur Cap 2020 have impacted the industry.

- Cost management
- Operational and technological risks
- Which ports will feature in compliance plans?
- Legal implications

PROCUREMENT AND TRADING DYNAMICS

With an increasing number of spot trades, traders need to adapt to new market pricing.

- Pricing trends: perspective from gas buyers and gas suppliers
- Shale gas reservoirs impact LNG trading prices
Hear about the latest projects and growth from shales gas
- Short-term vs. long-term contracts

FINANCIAL AND STRUCTURAL CHALLENGES TO FACE FUTURE ENERGY PROJECTS

ROLE OF GAS IN THE ENERGY TRANSITION AND FUTURE SCENERY

Consumption of gas experienced its strongest growth in over a decade.

- Impact of renewable expansion
- Where does gas fit into the future energy mix?
- Adoption of air pollution policies

SUBMISSION GUIDELINES

Submitting your presentation idea couldn't be easier...

Just visit www.worldenergyqatar.com/call-for-papers and take two minutes to enter your details along with a short synopsis about your presentation.

Our panel of industry experts will then review your entry, see how it fits into the programme and then we'll be in touch to finalise the details.

Alternatively, send our Conference production team an email at speak@worldenergyqatar.com, with the following information:

- Presentation title and topic
- Name
- Job title
- Company
- 100-word biography about you
- Contact details
- 500-word abstract on your presentation
